### ABOUT ME

Hi! I am Faqih, I am hardworking and ambitious individual with a great passion for learning software engineering. I am currently in my third year of studying Website and Application Development at SMK Yayasan Kode Indonesia. I have a strong determination to learn more, that's why I'm quick to learn new things.

### EXPERIENCE

Website Developer  
SMK IDN Boarding School

JULY 2020 - NOW

In this school, i learn website programming start from basic. I already learn about Front-End Developer start from HTML, CSS, JavaScript and more. I already mastered this things except PHP / Back-End Developer. I still want to improve while i'm studying.

Application Developer  
SMK Yayasan Kode Indonesia

NOV 2020 - NOW

I learn many things about application programming, like Kotlin, Swift, and more. I make some project for Android and iOS. But, i still need to improve my skill in application because I'm more inclined to the website.

Kodein Mengajar  
SMK Pakuan Lembang

22 NOV 2021 - 27 NOV 2021

I taught everything i got, it was a program from my school to teach another school students with what had they gotten from school.
